About Me

Results-driven Data Analyst and Business Intelligence Engineer with 4+ years of experience transforming complex data into actionable insights. Expertise in end-to-end BI solutions: relational database design, ETL pipelines, interactive Power BI dashboards, and AI-powered forecasting models. Proven track record building machine learning models with 90–93% accuracy, architecting Star Schema data warehouses, and analyzing 7,500+ real-world transactions. Also a versatile full-stack web developer (PHP/Laravel, JavaScript) and mobile developer (Flutter/Firebase). Recognized as Best Project — Class of 2026 for an End-to-End Sales Analysis & Forecasting System.

EDUCATION

B.Sc. in Information Systems — Business Intelligence | University of Science and Technology 2023 – Expected 2027 | Sana'a, Yemen

- Current GPA: 91.96 / 100 (Top of Class) | Specialization: Business Intelligence, Data Warehousing, Machine Learning, GIS

TECHNICAL SKILLS

- **Data Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL, Excel (Pivot Tables, Advanced Functions)
- **Business Intelligence:** Power BI, DAX, Google Looker Studio, KPI Design, Interactive Dashboards
- **Machine Learning:** Scikit-learn, Statsmodels (Holt-Winters), K-Means, KNN, Apriori, Time Series Forecasting
- **Databases & DW:** MySQL, SQL Server, Oracle APEX, Data Warehousing (Star Schema), ETL (SSIS), Data Modeling
- **Web Development:** PHP (Laravel), HTML5, CSS3, JavaScript, REST APIs
- **Mobile Development:** Flutter (Dart SDK v3.6), Firebase Auth, Cloud Firestore, FCM
- **GIS & Spatial:** QGIS, Geospatial Data Analysis, K-Means Clustering for Location Optimization
- **Cybersecurity:** Network Fundamentals (CCNA), Cybersecurity Essentials (Cisco), AES-256 / RSA Encryption
- **Dev Tools:** Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

1. **End-to-End Sales Analysis & Forecasting System** 🏆 **Best Project — Class 2026** | MySQL, Power BI, Python, Holt-Winters Jan 2026 .
 - Engineered a MySQL relational database connecting 5+ tables with 100% data accuracy across 2,616 transactions totaling EGP 33.8M net revenue.
 - Built 6 interactive Power BI pages with 20+ visualizations covering branch performance, product analysis, and customer segmentation.
 - Developed a Holt-Winters time series forecasting model achieving 93% accuracy (MAPE = 7%), projecting EGP 17.4M in 2026 sales.
 - Identified that unit price drives 74% of purchase decisions, redirecting strategy from discount-heavy to competitive pricing; top branch (Alexandria) contributed 25.5% of total revenue.
2. **Data Warehouse for E-Commerce Platform** | SQL Server, SSIS, Power BI, Star Schema Jan 2026
 - Designed a production-grade Data Warehouse using Star Schema with 5 dimension tables and 3 fact tables (FactSales, FactOrders, FactUserBehavior).
 - Built a full ETL pipeline in SSIS: CSV ingestion, staging, deduplication, type casting, and final DW load.
 - Delivered Power BI dashboards for sales performance, order tracking, customer behavior, and executive KPI reporting.

3. **AI-Powered Loan Approval Prediction Model** | Python, Scikit-learn (KNN), Pandas, NumPy *May 2025*
 - Built a KNN classification model to predict bank loan approvals using 10+ customer features; achieved 90% accuracy (Best K=31) with Approved F1=0.92 and Rejected F1=0.87.
 - Applied a full ML pipeline: EDA, data cleaning, label encoding, 70/30 train-test split, StandardScaler normalization, and hyperparameter tuning across K=1–39.
4. **AI-Based Optimal Health Center Location Planning** | Python (K-Means), QGIS, Power BI *Jan 2026*
 - Applied K-Means clustering integrating population density, geographic distances, and existing facility data to identify 3 optimal health center locations for Ma'een District, Sana'a.
 - Projected a 40% reduction in travel time to medical services for underserved areas and significant load reduction on central hospitals.
5. **Qaa'at — Event Hall Booking Mobile App** | Flutter (Dart SDK v3.6), Firebase, Provider *2026*
 - Architected a full Flutter platform for event venue booking with 5-role RBAC, biometric authentication (FaceID/TouchID), and real-time Firestore date-locking (0% booking conflicts, <120ms DB response).
 - Reduced venue search time by 92% (from 3 days to under 5 minutes); implemented real-time chat, push notifications, bilingual UI (Arabic RTL / English LTR), and Dark/Light mode.
6. **Sallet Al-Kheir — Full-Stack E-Commerce Website** 🧰 **Best Project — Class 2025** | PHP, MySQL, HTML5, CSS3, JavaScript *Mar 2024*
 - Developed a full e-commerce platform with storefront, cart management, order system, and admin panel backed by a normalized relational database with 15+ tables.
 - Built an advanced reporting engine: top-selling products, daily sales comparison, inventory levels, geographic purchase heatmaps, and customer analytics.

EXPERIENCE

Data Analyst & BI Developer — Freelance | Independent Consultant *2023 – Present* | Remote

- Delivered end-to-end BI and data analysis projects for real clients in Egypt and Yemen, including full sales analysis systems, data warehouses, and interactive Power BI dashboards.
- Developed and deployed full-stack web and mobile applications for SME clients, from requirements gathering through production deployment.
- Consulted for Ma'een District municipality on AI-driven urban health infrastructure planning using GIS and K-Means clustering.

CERTIFICATIONS & TRAINING

- **Professional Data Analysis Certificate** — IBM / Coursera, 2026
- **Python for Data Science, AI & Development** — IBM / Coursera, 2026
- **Generative AI** — IBM / Coursera, 2026
- **Databases and SQL for Data Science** — IBM / Coursera, 2026
- **Data Visualization & Dashboard Essentials with Power BI** — IBM / Coursera, 2026
- **Machine Learning Specialization** — Udemy, 2025–2026
- **CCNA: Introduction to Networks** — Cisco Networking Academy, 2024–2025
- **Introduction to Cybersecurity** — Cisco Networking Academy, 2024–2025
- **ICDL – International Computer Driving License** — University of Science & Technology, 2023–2024
- **Diploma in English Language** — American French International Institute, 2022–2023

LANGUAGES

Arabic: Native / Mother Tongue **English:** Professional Working Proficiency (Very Good)
